(54) Title: DEVICE FOR FIXING A MANIFOLD FOR FLUID DISTRIBUTION

(54) Titre: DISPOSITIF DE FIXATION POUR UN COLLECTEUR DESTINE A LA DISTRIBUTION DE FLUIDE

(57) Abstract: The invention concerns a device comprising a support plate (6) designed to receive the manifold and whereon is mounted pivoting at least one shaft (14) wherein is screwed a screw (12) perpendicular thereto. A manifold for distributing fluid adapted to said fixing device comprises a tubular body (18) having a longitudinal axis (20) with which is associated at least a radial outlet (22). On two opposite faces, are provided two fixing brackets (36) each comprising a base (38) linked to the body (18) of the manifold and two branches (40) extending in a substantially transverse direction.
